### PROFESSIONAL PROFILE

I am a solutions-oriented Software Engineering Fellow who has previous experience in project management through my past internship with the Orlando Solar Bears. I am eager to apply recently completed Software Engineering education and Integrated Business degree towards launching a successful career with an organization that will capitalize on my problem-solving skills as well as my overall understanding of project and strategic management while offering opportunities for career-building experiences in exchange for solid work ethic, integrity, and commitment to superior performance.

### WORK EXPERIENCE

#### **Software Engineering Fellow**

##### **General Assembly**

**February 2021-May 2021**

*General Assembly* is a market leader in the *Tech Bootcamp* space that provides best-in-class educational products that empower individuals across all major verticals of technology and business.

- Architect and built fully responsive front end web applications using HTML, CSS, JavaScript, React, and third-party API integrations
- Developed full-stack applications and designed REST APIs with full CRUD functionality using React, JavaScript, Node.js, Express, Sequelize, PostgreSQL, and Ruby on Rails
- Applied knowledge of key languages and computer science concepts, including algorithms, data structures, databases, and MVC pattern design to develop high-quality and maintainable code

#### **Orlando Solar Bears**

##### **Operations Intern**

**August 2019 - February 2020**

The *Orlando Solar Bears* are a professional ice hockey team that plays their home games at the Amway Center in Orlando, Florida. As well as host numerous philanthropies for the Orlando community.

- Facilitated 12 new season ticket sales within a 2-month period
- Provide support for the operations department (i.e. half-time, escorting V.I.P.s)
- Assist in special events ran by the Solar Bears

#### **WAL-MART**

##### **Store Attendant**

**May 2018 - August 2018**

- Managed inbound and outbound inventory and freight deliveries, provided quality checks for damaged products
- Stocked and maintained inventory by utilizing a record-keeping system to document and organize products
