International Business Program

PERSONAL PROFILE

I am a solutions-oriented Software Engineer who has experience in working in project teams to deliver full-stack applications. I also have experience in project management.

WORK EXPERIENCE

Software Engineering Fellow
General Assembly | February 2021-May 2021

- Architect and built fully responsive front end web applications using HTML, CSS, JavaScript, React, and third-party API integrations
- Developed full-stack applications and designed REST APIs with full CRUD functionality using React, JavaScript, Node.js, Express, Sequelize, PostgreSQL, and Ruby on Rails
- Applied knowledge of key languages and computer science concepts, including algorithms, data structures, databases, and MVC pattern design to develop high-quality and maintainable code

Orlando Solar Bears
Operations Intern | August 2019 - February 2020

- Facilitated 12 new season ticket sales within a 2-month period
- Provide support for the operations department (i.e. half-time, escorting V.I.P.s)
- Assist in special events ran by the Solar Bears

PROJECTS

- **Collaboreatery** - Full stack application with full CRUD. Built with React, CSS, NodeJS, MongoDB, and Express.
- **Campfire** - Full stack application with full CRUD and user authentication and authorization. Built with React, CSS, PostgresSQL, Ruby on Rails, bcrypt, and JWT.
- **Chit-Chat** - Built with React, CSS, and MaterialUI.
